

Impact-R 3019

Features

The Impact-R 3019 incorporates a high reliability industrial motherboard featuring the Intel Q45 ICH10-DO chipset. Powered by an Intel Core 2 Processor, this system provides both PCI and PCI Express expansion and features onboard RAID.

The Impact-R series utilises industrial components which provide revision control together with a 5-year product life.

Our systems are assembled and tested within a lean manufacturing environment controlled under our ISO 9001 quality system.

Systems can be tailored to meet your exact requirements. Each system comes with a 3 year warranty, with the first year onsite as standard.
