

SS-5-XXX/DIN

SWITCHING POWER SUPPLY 5 W

CHARACTERISTICS

Switching DC/DC converter 5 W DESK-TOP

Switching DC/DC converter, galvanic separated, with stabilised output voltage. For telocommunication, control and measurement equipment. Possibility other range of input voltage.

Input

- Input voltage (standard)
- 20V-32VDC or 36-60V
- Incoming power 7W to 9W (depend on type)
- Reversing of polarity protection
- Input removed plug-in type screw terminal

Output

- Efficiency 75-80 %
- Short circuit protection.
- Output cable with DC connector 5,5/2,5mm (length 15cm)

Other data

- Covering IP40
- Dimensions 70x65x27 mm (include holders)
- Operating temperature 0 °C to +40 °C
- Storage temperature -20 °C to +70 °C
- Operating RH 10-80 %
- Storage RH 10-90 %
- Weight 0,15 kg

Standards

- EN 60950+A1+A2, EN 50081-1, EN 50082-1
- Dielectric withstand 500 V input-output/1min

Warranty

- 24 months
